Designer  
Lenses  
Included

WTNOVS-NL

Experience the marriage of beauty and durability as each Odyssey line fixture is built from solid brass and stainless steel and designed to last a lifetime.

## Product Description

Designed to provide in-ground lighting solutions, the Nova Star is ideal for up-lighting a variety of elements, from trees and shrubs to pillars and other vertical structures. The die cast brass grate is a standard accessory designed to minimize glare while the designer lenses allow maximum design control by creating various beam spreads and light output.

Use the Nova Star as a back, side or accent light for the perfect grazing or shadow effect. Recess the Nova Star in hardscaping areas where an above ground light can't be used by utilizing the supplied PBT sleeving.
